Subject: **TIME DEADLINE - I GO MISSING OFF THE GRID -- JANURARY 7TH 2022**

I go off the GRID to go MISSING
 TO GO DIE --Because I have no
 medical care -- and I am showing
 physical problems that my physical
 body is finally showing from not having
 HIV Treatment since March of 2019.
 The story is told and been shared.
 Over and Over, trying to reconnect
 my physical body and mental body
 healthcare to reflect realism and
 the truth. I have been posting
 on social media under the tag
 #HIVUNTREATABLE to the events
 that has transpired --- no change
 that I can trust. Every effort I
 have tired -- SWAT ME OUT
 SHOOT FLY DON'T BOTHER ME --
 Too much reality of the truth?
 The truth, the whole truth, and nothing but

the truth.

I have an open CRISIS TEXT LINE involved here.

I have only known, this is an unreal situation to interface

one on one with you all -- I DEMAND THAT YOU RELEASE ME OFF THE HOOK OF THIS GRAND PLAN OF THIS SOCIETY TO KILL ME!

Sorry any repeating information -- its dysfunction cycle is showing so grand --- the crisis text line --- is that really going to work in this view? I am expecting their response -- I will get none.

Why would they think this is a PRANK?

I HAVE NO IDEA!

Why Why Why Why Why? Jun2005-Dec2021
BLOCKED OUT OF CIVIL SOCIETY EVERYWHERE I TURN!

Mr. Driskill sought treatment for a high level of stress and anxiety primarily regarding his housing situation. He became homeless in Oakland earlier in 2006 and is currently residing with his family and extended Family in San Bernardino. In addition to his unresolved eviction in Oakland he was not able to secure immediate housing through the AIDS Housing Program in San Bernardino County due to a waiting period for each new applicant. These events resulted in Mr. Driskill experiencing a high level of anger and frustration.

While in both settings of therapy, Men's Support Group or Individual Psychotherapy, Mr. Driskill accepts the fact that he has an upfront, in your face style of confrontation. The men and I have come to realize that his style is primarily a reaction to his extreme level of frustration and we have learned not to be put off by his style. In these affirming settings he has learned to modify his style of confrontation which should continue to improve. I have also been impressed with how Mr. Driskill has sought out resources on how to understand... and to cope more effectively while experiencing an almost complete lack of support from agencies and individuals. One such resource was the book "Please Understand Me: Character & Temperament Types", Kiersey, Davis and Bates, Marilyn.

His Mental Health and HIV Health status were both clinically affected by his housing crisis in Oakland and here in San Bernardino. He is currently responding well to the treatments and his prognosis is good. However, I believe that until there is an appropriate resolution (he wants an absolution) of his housing conflicts, he will remain in a vulnerable state regarding his overall HIV and Mental Health status.

Hi there,

Thanks for reaching out! This is our tech and general inquiry email address — If you are in crisis, please text "HELLO" to 741741, or message us at facebook.com/crisistextline, to be connected to a trained Crisis Counselor at any time.

Our office Staff is off for a holiday break until Monday, January 3rd, at 9:00am EST. We've received your message and we will get back to you as quickly as we can when we return.

We will have staff checking in periodically each day to assist with any urgent situations (such as lockouts) during this break. However, please note we will be fully offline the following

days:

- Saturday, December 25th
- Friday, December 31st
- Saturday, January 1st

We will be a bit delayed in responding during this time, especially following those offline days. We appreciate your patience and understanding in advance! Our team is excited to be taking some time to fill our cups and return refreshed to support you all in the New Year.

We hope you have a wonderful, safe, holiday, and find special ways to celebrate, even if things look a bit different this year. We look forward to being in touch in January!

Stay well,

Worried About Swearing Too Much? Science Says You Shouldn't Be

Well, damn. Maybe you stubbed your toe first thing in the morning. Or some thoughtless commuter forced you to slam the brakes on the drive to work. Perhaps you're just fed up with it all and feel like sinking to your knees and cursing the heavens.

If you've ever suppressed the urge to unleash a string of obscenities, maybe think again. Some research suggests that it might be a better idea to simply let the filth fly.

Scientifically speaking, a penchant for profanity doesn't seem to be such a bad thing. Studies have shown that swearing relieves stress, dulls the sensation of pain, fosters camaraderie among peers and is linked with traits like verbal fluency, openness and honesty.

And the effects of cursing are physical as well as mental. A 2018 study in *Psychology of Sport and Exercise* found that letting out a few choice words during a workout can actually make you stronger. In the study, participants who cursed aloud while gripping a hand vise were able to squeeze harder and longer.

Timothy Jay, professor emeritus of psychology at the Massachusetts College of Liberal Arts, thinks that humans partly developed taboo language as an emotional release valve.

"There's a point where it's just more efficient to say, 'F*&^ you,' than it is to hit somebody," adds Jay, a world-renowned expert in cursing. "We've evolved this very efficient way to vent our emotions and convey them to others."

Pain Relief

As anyone who's ever struck their thumb with a hammer can attest, swearing is a pretty common response to pain. But for years, some pain specialists thought that cursing doesn't really help much in those situations. They theorized that swearing might actually have a "catastrophizing" effect, meaning that it prompts people to exaggerate or overstate the severity of pain.

In 2009, researchers from Keele University's School of Psychology in the U.K. set out to study whether swearing alters someone's experience of pain. Based on previous assumptions that swearing was a "maladaptive" response to pain, the scientists guessed that swearing would make pain feel worse.

But, surprisingly, the scientists found that swearing actually increases an individual's pain tolerance. The team tasked 67 undergraduate volunteers with plunging their hands in ice-cold water for as long as they could handle it while repeating a swear word of their choice. Then, they did the experiment again — but this time, the students said a neutral, non-taboo word. The research team found that volunteers were able to keep their hands submerged in the frigid water for longer while repeating the swear word.

In addition, because swearing was accompanied by an increase in heart rate, the scientists think that cursing may trigger an individual's "fight-or-flight" response. They suggest that swearing triggers negative emotions that serve as an alarm bell, alerting someone to danger and sparking an innate defense mechanism.

Damn Honest

Beyond swearing's impacts on the body and mind, research has shown that cursing can influence our social dynamics, too. A 2012 study found that swearing can enhance the effectiveness and persuasiveness of an argument. In addition, cursing can also convey an emotional reaction to something without us resorting to physical violence.

And while many might consider swearing less than savory, a recent study revealed that people who curse often actually lie less and have a higher degree of integrity.

After the scientists surveyed how often participants use profanity, they conducted a series of tests to determine how truthful an individual was. The research team found a positive link between profanity and honesty. Cursing was associated with less deception on an interpersonal level, and higher levels of integrity overall.

Words To Live By

Art thou dejected?
Is thy mind o'ercast?
To chase thy gloom,
Go fix some weighty truth;
Chain down some passion; do some generous good;
Teach Ignorance to see, or Grief to smile;
Correct thy friend; befriend thy greatest foe;
Be just in all things; make amends
For follies past, and, with warm heart,
Forgive, and be forgiven. Let work not words
Thy virtue prove. Go act as well as prate,
And then thy counsels will be strong,
Thy reprimands avail. —ANON

THE province of the historian is to gather the threads of the past ere they elude forever his grasp and weave them into a harmonious web to which the art preservative may give immortality. Therefore he who would rescue from fast gathering oblivion the deeds of a community and send them on to futurity in an imperishable record should deliver a plain unvarnished tale.

"Other Role" and I am a patient as well. A coupling of things that must be considered here. I am a person who has a "Personal Information" system and I approach again the Mental Health Provider of Inland Psychiatric here in my hometown. My history with this mental health provider might be needed to clarify something very important into view of your now interface upon this return attempt to balance - patient-center - the access communications, esp. to enable the Convention for the Rights of Persons With Disabilities, CRPD signed my PRESIDENT OBAMA. Specially Article 12 on enabling "Legal Capacity" - This is LAW here in the United States even though it was not ratified by the congress. As it applies, the model to which it subscribes can be emphasized upon civil society affairs. My last interface with the health care provider did not really work. I told the doctor at the very start. Your interface was not present. I shared to the doctor with a SCAN QR -- something so foreign to his ability. Almost like he did not have such a knowledge and had to get help from his son. I am serious. To engage with the DOCTOR not the PATIENT normalization of standard of communication. The issue here is very dire. In that past interface, I told the Doctor that I would not pay for the care if it did not address the solution for my own self-direction that I expressed into -- Self-Direction CRPR Article 12 - 2009. For the duration of this -- I never paid my bills. I was attempting to interface via email. He never responded too confirm either my emails or my fax. These are tools that we as patients should and must demand to be comfortable to enable. I never paid the bill, and I continued to email him updates to my struggle from time to time. At a distance, it hit a barrier when the email box was no longer available. The entire mess I never never paid for. Then I got a bill that applied a payment. I left it alone. Now into now today, I have a first time appoint with this firm and I just know, it is going to fail. When I my account was Kareo Portal account was attached, it came along with my medical records they were keeping. Atlas, I have an 100 credit balance. I never paid a single part of this. I need to have Kareo involved in viewing from above to ensure that they are actually doing the right things. Can I have your attention to a patient who needs to have its rights -- the rights of CRPD Article 12 - in view that I personally have an Personal Information System and that we must progress into a new view for that fact my request today. In Facebook Messenger, your agent just kicked me to the curb - I don't like it. Really need your interface to be square in place for this to be focused and launched. Otherwise, it remains a "Forevermore Cruel" situation onto my mental health progress. I have no privacy in all of this. I have no access to an HIV CARE since my last HIV doctor TERMINATED my care in March 2019. There is a story in view. The QR Code attached to the Doctor provider provider access the URL, I am serious - Thank you. All is not well with your interface upon this provider without a confirmed understanding.

THERE IS A HUGE VOID OF TRUST LOST HERE ---
I HAVE ABSOLUTELY NO FAITH THAT EVEN IF THERE IS MEETING WITH PHILLIP
SANTIAGO,
THAT THESE MATTERS I BRING UIP WILL BE CONSIDERED WITH ALL SERIOUSNESS!
I HAVE BEEN A ODDS WITH THIS PROBLEM FOR A LONG TIME -- NOTHING HAS
TRANSPIRED INTO ANY KIND OF VIABLE HOLDING -- YOU TOO WILL FAIL -- FOR SURE!

So, in that I know this pre conclusion -- I put a tweet out there --- and PROMO IT for
\$500 for 5 Days. Budget
Yell, I am going off the grid in the failure of this --- for sure -- you all don't care for
what has happened here.
You are actually on the side of its creation -- Admit your position. Don't sit there in
silence.

A Wicked Problem - nothing I say or send out, you care about - perfectly it is
understood by me.

Understood -- goodbye I died.

On Twitter, I have it attached to my local supervisor --

I know the truth.

I have done nothing wrong. You can not call me wrong.

You can't be critical about the way I am approaching = The Cynicism.

cyn·i·cism

noun

noun: cynicism; noun: Cynicism

1.

an inclination to believe that people are motivated purely by self-interest; skepticism.

Similar:

skeptic

doubt

distrust

mistrust

doubtfulness

suspicion

disbelief

incredulity

unbelief

scoffing

pessimism

negative thinking

negativity

world-weariness

disillusion

disenchantment

dubiety

sardonicism

Opposite:

optimism

*

an inclination to question whether something will happen or whether it is worthwhile; pessimism.

"cynicism about the future"

2.

a school of ancient Greek philosophers, the Cynics.

What's a Wicked Problem?

In 1973, design theorists Horst Rittel and Melvin Webber introduced the term "wicked problem" in order to draw attention to the complexities and challenges of addressing planning and social policy problems. Unlike the "tame" problems of mathematics and chess, the wicked problems of planning lack clarity in both their aims and solutions. In addition to these challenges of articulation and internal logic, they are subject to real-world constraints that prevent multiple and risk-free attempts at solving. As described by Rittel and Webber, wicked problems have 10 important characteristics:

- 1) They do not have a definitive formulation.
- 2) They do not have a "stopping rule." In other words, these problems lack an inherent logic that signals when they are solved.
- 3) Their solutions are not true or false, only good or bad.
- 4) There is no way to test the solution to a wicked problem.
- 5) They cannot be studied through trial and error. Their solutions are irreversible so, as Rittel and Webber put it, "every trial counts."
- 6) There is no end to the number of solutions or approaches to a wicked problem.
- 7) All wicked problems are essentially unique.
- 8) Wicked problems can always be described as the symptom of other problems.
- 9) The way a wicked problem is described determines its possible solutions.
- 10) Planners, that is those who present solutions to these problems, have no right to be wrong. Unlike mathematicians, "planners are liable for the consequences of the solutions they generate; the effects can matter a great deal to the people who are touched by those actions."

What does that mean to you -- you have replied ==-- you can't characterize me as wrong For ignoring me.

but you will. I will not be given viable access to this matter -- wow -- that's the running of a knife to my heart.

I do believe I have no further -- this server or serves on your end for a heart instead of a cold frozen wasteland.

In final form, one more acknowledgment, the undermined of trust for the technology
tools we are using. Fresh Windows 11 update, unapproved an instant revolt for that
offense.

In the history of all in this, one might think something or know something

I am no spy, not trained in spycraft. No, I am just a normal everyday citizen with
disabilities trying to hold my life in the guidance of my teaching of moral upbringing.

People can not deal with real real real reality.

An image of the failed Facebook Messenger of Crisis Text Line:

I ended, and they replied:

THESE ARE MATTERS OF NEED FOR THE INTEREST OF NATIONAL SECURITY!

You sent

Seriously, to the directives of change in the Mental Health Industry as a whole.

Crisis Text Line

You have used Crisis Text Line inappropriately by prank texting.

Crisis Text Line

For this reason this conversation has been ended. Inappropriate use of our service may result in you being banned from using our crisis service for 6 months.

BLOCKED COMMUNICATION CHANNEL:

What I was about to add, got cut off.

If we can leave this for the moment, I will return to Crisis Text Line when I have completed my work on the email that must provide the sanity out of the insanity that I keep encountering online and offline – GOD is WATCHING all of this. For sure!

We as a society have lost trust so eroded, truth and reality can not be said. There is no prank texting here.

A communication bridge needs to be erected.

In all of this, there is the truth.

As such, I registered back in 2005 something unique. I never thought it to be anything but a place to label or index a life journal that I choose to reflect on and project a reality at all times.

No way can it be said, I am suffering from a break from reality.

My hp laptop computer, I myself messed up the screen when In the first weeks after I got it, in planning to leave this house – leave everything behind.

I Left here in August – on an Amtrak train to New York. My brand new mobile device, new area, new name, address assigned for the record is the address of the United Nations.

I left this hp computer with a 1 terabyte hard drive, barely filled at the homeless shelter at Rise of a Fallen Angel of San Bernardino, attempting to get help with this. A homeless shelter outside my family. My family story follows. What happened at the shelter is placed into the document recorded as an audio file named HateTrophy, the details of my attempt to dire and send via Facebook Messenger -- their chosen interface visible to our community.

The audio file generated has the transcript of that effort is named:

Hate Trophy -- URL Below.

I left my HP Laptop at a homeless shelter. Escape from community to the United Nations.

I give up on you all.

My mother knew it was there but I did not request it back.

In January when I was hospitalized from the events of the motel room, she allowed a friend I told no more abuse of me.

She allowed him back in the house -- of course, I had told her - I never wanted to see Timothy Kyle Ashley ever again!

I announce to the house weeks prior, he is a thief!

She allowed him while in my absence to come into my room, steal my computer and my wallet.

That computer is not returned and my ATM was used without my authorization.

No more timothy. Right? This story of drama continues.

The HP laptop I am using, broken screen. I bought it to replace the one lost by theft! Left at the homeless shelter. The audio generated is titled.

Hate Trophy

Crossing this is that I know what I know. Be damned the truth. I am not believed in the truthfulness of reasonings I attempt to bring into a conversation here under this roof. With all seriousness applied. No, that is not the environment I am under. I am trapped!

Trapped in a world of insanity!

I know what I know.

When I don't know, I say so.

Only to know MyDomain, with an Unlimited Storage Featured in my paid subscription services since 2005, issued Me a letter.

Poor little old me, a demand to remove data. I exceeded the top of the entire domains users. I was over with what has been basically the inclusion of ideals, to my best holding of a 1945 article that appears in The Atlantic Monthly.

The article describes what is a 'Memex Device'

The file removal directives of the internet web hosting service of my file space of Mydomain to remove my backup directory files,

in the execution of that action, there must have had a hardlink reference to:

[Http://fuckeduphuman.net](http://fuckeduphuman.net)

With a prior connection to @MyDomain

This includes the files referenced here:

<http://fuckeduphuman.space/911-Text-Interface/>

They never replied to my customer service issues.

The conducted correspondence in email that received no reply.

The name reference obviously implies something serious... serious?
A problem with security. A problem with integrity. Maybe?

Should that folder have to be named:

911.gov-Text-Interface.

Details lost on needing detail rather than simple mode in the communications I NEED to be ENABLED, please.

Insert, the homeless shelter again on the site of hate, creates this link to the audio, an attempt to use Facebook messenger, again to a sustained natural course of dual-direction conversation --- The tool most abused any normal process to hold a proper conversation.

<HTTP://hatetro.fuckeduphuman.life> (<http://hatetrophy.fuckeduphuman.life>)

I just can not believe that everyone I encounter defends the silence and the activity of our nation's enemies.

Exactly what is here -- happening here -- on this slice of life.

MyDomain involvement proves a precognitive agency of motives to protect something that can't say.

The motives are given an attempt to explain. No reply

What remains is the deductible reasoning of deafening silence.

My file space was hacked by a setup dynamic and a self-action.

The word "memex" itself is misspelled as not a word in the dictionary

However, showing the science involved [memetics] is a lexicon of our approaching year 2023 humanity. (See attached image)

Boring an

The Amtrak Train Trip from my hometown of San Bernardino to New York City was interrupted.

I was pulled off the train by attempting to install a communication bridge with the train's conductor shortly after she boarded In Austin Texas. My destination was (and continues to be possible) the United Nations.

Results to these logged realities of documentation into this Memex space:

<http://fuckeduphuman.space/Williamson-County-Texas-Jail/>

The direct involvements to what they attempted when I was transferred to an involuntary hold at a Bell County Mental Hospital.

They filed in court without my knowledge. A probable cause for what I know is the truth. It might be a hard stretch for current Doctors to accept this, by way of ignorance or intentional blockage of patient-centered communications.

To absorb the ability of the experts to get away with the abuse in this field of healthcare,

That allows the label by default:

They deem me the enemy and danger against a secret agenda.

Their attempt failed to throw me away from society by an illegal process of out-of-due process.

This is proved and documented.

To at least a first stage of a 45 days hold for psychiatric care and observance.

Documented here:

<http://fuckeduphuman.space/Temple-Behavioral-Healthcare-Hospital-Inc%20/>

These are facts documented. These are facts documented. These are facts documented.

When after all of that from Texas, I should not come back. I have compelled a release treatment plan.

Which they were not going that direction -- I did not even know about the court papers- they gave me.

Further insult, when I got home back to San Bernardino --- who is back here -- my mother did not give the respect of all of the truth. I am forsaken that all off you can't be honest. Timothy Kyle Ashley who is a thief-- stole my computer and various other things, and I am supposed to forgive this shit for peace. I am the peace man-- Timothy Kyle Ashley was once again welcomed and hanging around this house and remains to be that welcomed guest here written in Christmas Day 2021..

<https://www.facebook.com/timothy.ashley>

What becomes apparent, up to my mother needing to find an object from the kitchen. She asked me earlier. If I had it inside here. In a locked room. I of course said no. Because I don't. In all that she is doing. An item in the kitchen overall is not that important.

An hour ago or now. She is coming in and pissing on my life -- my work in this email -- and the rest -- I called her on your manipulations. For sure. I told her, the dog must have taken it. This is classic gaslighting. She has an issue and I can be under this roof any more one second past ---the expiration time

When I got back from Texas, I found much to a confirmed surprise the fraud established in the Sheriff's and the mental health care system. No kidding.

I represent the truth: A Link to YouTube Playlist... no one of these she has placed into your viewing knowledge. To remain ignorant of her duty to hold me honorable to what I have experienced. No impression she is living life in reality. She is suffering from an escape -- she is the one with a need for mental health care. That she does not admit.

Mama, you don't care that they are after me. You have picked that which you hold to escape into instead of me.

You will not become a responsible mother. You forsake me just the same. You continue to focus negatively on me, and psychologically invalidate my efforts. Unlying some methods you are so smooth to have done years.

I am not your puppet to abuse mother. That here is revealed. I will not keep secrets.

The item from the kitchen == so not important.
Her son's life is a sacrifice to this process.

FUCK PEACE! THE HATERS JUST ABUSE THIS!

"The Intelligence & Analysis Office of DHS provides funding, training, free software, database and contact lists, and some of the key personnel for the Fusion Centers in the United States. I & A Office coordinates between the Fusion Centers and works with the Emergency 911 Call Centers in the United States, to block and redirect the emergency calls of Targeted Individuals. Many Targeted Individuals have experienced what happens when making a 911 emergency call and no ambulance arrives, or police arrive and mock you."

NO MORE TIME. THIS IS PROVABLE BEYOND A REASONABLE DOUBT.

My interface with 911 Text and voice services was events that come into the view of the responsibility of those who are in our society that personally is at the service of life over death of me.

911 details events in a motel room starting Jan 3rd, 2021. Marked on social media as #BloodRoom101

The community apathy to not receive the truth is TREASON. You will act to ignore me. Here now and future.

A Forevermore Cruel Outrage!

I DIED!

My family is shattered.

I really need my mother to cross-share my correspondences because I fear content suppression filtering. This family's betrayal of not familiarizing themselves with me and what I do. And to represent all this for all of these years.

They are a huge matter of disoriented priorities they lose track of. This Insolence is too much to cope with. They refuse the calling of a family member of my needs for them to also change. You all are collectively insane.

I cannot stay here.

When I got back from Denver in 2017, I opened my mother's inbox, to not know how long of possible filters in email and the deafening silence for the communications sent. They were all there, unread. Basically 15 years back.

The use of the TO: address goes into that archive.

She claims she can not access it when after I brought her attention to the unread history. This argument about the destructive psychological invalidating continues up to this day.

An unnatural set of equations she refuses to take her responsibility for.

When in 2017, I came back here, knowing what happened to me in Denver, a 11-month hate and harassment campaign against me, uprooted me from HIV residency,

I should never have come back here.

My mother and I made the agreement that we would seek counseling.

That felt flat on true integrity on her part. We went for a few sessions, she lied on the intake forms. She and I, in their clinic office – with a telecommuting interface.

Fail Fail. –

Yes, Philip, we (communication bridge) are talking about the same location of Inland Psychiatric that my appointment on the 4th January is set to kill me without a doubt.

You all are insane.

I refuse to be the continued target of a society that attacks me.

Let me go – to have freedom – from this long-term attack against a peace mission man.

To go and leave your insanity in freedom to choose death over this life.

No one here in complexity. You all hold onto your insatiable need for simplicity and apathy.

I AM AN TARGETED INDIVIDUAL OF GANGSTALKING FOR 16+ YEARS!.

NOW RESEARCHED ON THE NATIONAL INSTITUTES OF HEALTH.

NO MORE DELAY!

BUT YOU MUST ALSO FAIL!

Let me go off the grid to go die.

That which is your failing to best represent the world's special interest and not an Imbalanced doctor/patient relationship deemed unworthy to continue its silence and intention to destroy life, liberty, and the pursuit of happiness.

Literally, in the view of the government's involvement in holding secrets,

Leave me the fuck alone.

Stop gangstalking me!

It is a community-based problem of national security interest that must be terminated.

Unconditionally, the doctors involved in my life must interface with this knowledge.

Fuck You Doctors otherwise.

You all have destroyed me. You continue to destroy other Targeted Individuals that are being attacked at the vulnerability of our mental health stability.

Actions of Psychologically Invisible Weapons of WAR against our citizens.

How the fuck can you remain there knowing this and be a doctor sworn to your oath to do no harm?

Honesty is something that many people claim to have, however, there are things only truly honest people understand. Their personality allows them to have unique

perspectives to situations, and they would rather speak their minds than pretend to be something they are not. Because when you lie, you are not free. Living in falsehood and constant lies and dishonesty eventually catches up with people. While being honest may have its pros and cons, it's important that we all learn to speak the truth. That's the only way we can build trust with others and establish solid relationships. Brutally honest people understand this more than anything! They also know that honesty is generally appreciated by others – even if they don't do so right away.

<https://www.stonybrook.edu/commcms/wicked-problem/about/What-is-a-wicked-problem>

What's a Wicked Problem?

In 1973, design theorists Horst Rittel and Melvin Webber introduced the term "wicked problem" in order to draw attention to the complexities and challenges of addressing planning and social policy problems. Unlike the "tame" problems of mathematics and chess, the wicked problems of planning lack clarity in both their aims and solutions. In addition to these challenges of articulation and internal logic, they are subject to real-world constraints that prevent multiple and risk-free attempts at solving. As described by Rittel and Webber, wicked problems have 10 important characteristics:

- 1) They do not have a definitive formulation.
- 2) They do not have a "stopping rule." In other words, these problems lack an inherent logic that signals when they are solved.
- 3) Their solutions are not true or false, only good or bad.
- 4) There is no way to test the solution to a wicked problem.
- 5) They cannot be studied through trial and error. Their solutions are irreversible so, as Rittel and Webber put it, "every trial counts."
- 6) There is no end to the number of solutions or approaches to a wicked problem.
- 7) All wicked problems are essentially unique.
- 8) Wicked problems can always be described as the symptom of other problems.

9) The way a wicked problem is described determines its possible solutions.

10) Planners, that is those who present solutions to these problems, have no right to be wrong. Unlike mathematicians, "planners are liable for the consequences of the solutions they generate; the effects can matter a great deal to the people who are touched by those actions."

<https://www.accord.org.za/ajcr-issues/the-nature-of-intractable-conflict-resolution-in-the-twenty-first-century/>

The term 'intractable conflict' is widely perceived as an impossible dilemma: a situation with which there is no positive outcome, no solution. These are the conflicts alleged to stubbornly elude resolution despite the use of popular conflict management techniques available. Intractable conflict, a vast area of concern, has often been characterised by the prolonged violent actions of state actors or communities in response to harmful social or cultural hardships. Redress and/or revenge are motivating factors. These conflicts have survived because of deep-rooted and complex attitudes, behaviours and situations which seem to be impenetrable to methods of resolution.
